Others: Data Structures and Algorithms, DBMS, OOPS, GitHub, Netlify, Render

EXPERIENCE

CSCODETECH (Intern)

May – June, 2023

- Development of Fully Functional Ecommerce website (POS System).
- Focused on back-end development to ensure robust functionality and seamless integration.
- Integrated front-end components from a pre-designed template to expedite development.

Tatvasoft (Intern)

May – June, 2024

- Developed and enhanced RESTful APIs using .NET to support various business functionalities.
- Debugged and fixed bugs in the code, ensuring seamless performance and user experience.

PROJECTS

TodoSync / [Code](#) / [Video](#) / [Live](#)

- Full Stack web application where you can manage tasks with features like priority setting, marking as favorite, and deadlines.
- Users can create, update, and delete tasks, and organize them by priority and deadlines.
- Implemented notifications and reminders to help users stay on top of their tasks.
- Tech Stack: *NodeJS, ExpressJS, MongoDB, ReactJS*

MealMission / [Code](#) / [Video](#) / [Live](#)

- Creating a platform for volunteers and hotel owners to minimize food wastage.
- Hotel owners can post available food, and volunteers can view and participate in city-specific drives.
- Implementing a system of badges and leaderboard rankings to incentivize and recognize volunteer efforts.
- Tech Stack: *NodeJS, ExpressJS, MongoDB, ReactJS, TailwindCSS*

ACHIEVEMENTS & CERTIFICATIONS

- Maximum rating on Codechef: **1410** (2 ★) & on LeetCode: **1496**
- **Finalists** of CVMU Hackathon organized by CVMU
- **4th rank** in HackSwift 2024
- Completed [Machine Learning](#) Course on **Coursera**
- Achieved **Top 5%** on **NPTEL** exams with scores of **75** in [Natural Language Processing](#) and **83** in [Deep Learning](#).
- **NPTEL** Score **73** in [Project Management for Managers](#).

VOLUNTEERING

CodeChef BVM Club (Web Developer)

August, 2023 - May, 2024
